

GPOS SYSTEM - COMPANY OVERVIEW

One Platform for Every Business

GPOS System is accounting, inventory and billing software from Dhaka, Bangladesh. It brings selling, stock, purchases, accounts and staff together in one system, and comes ready for 11 kinds of business, each with its own tools.

Large Solution. Small Price.

KEY HIGHLIGHTS

11 industry solutions

Ready-made for retail, pharmacy, restaurant, salon and 7 more.

Works offline

Counters keep selling when the internet drops.

Bangla & English

Use the software in the language your team knows.

VAT (Mushak) ready

Mushak-6.3 invoices, VAT registers and return worksheet.

Your own database

Every business has its own separate, secure database.

One shop or many

Shops, warehouses and users grow with your business.

01 WHO WE ARE About GPOS System

Business software that does the daily work for you.

GPOS System helps shops and businesses of every size run their daily work from one place: selling at the counter, buying from suppliers, keeping stock right, collecting dues, paying staff and keeping the books.

Everything is connected, so one sale updates stock, accounts and reports at the same moment. Each industry gets the screens it needs, like tables and a kitchen screen for restaurants or generic search and expiry control for pharmacies.

Our promise is in our tagline: a large solution at a small price. You start with the plan your business needs today and move up as you grow.

Plans for every industry

40+

Modules and apps

2

Languages: Bangla and
English

02 HOW IT WORKS From sign-up to your first sale

Six simple steps, and the system keeps everything in order after that.

1

Pick your business type

Choose one of the 11 industry solutions. The modules your business needs come switched on.

2

Choose a plan

Basic, Standard or Premium. Start with a trial plan and upgrade whenever you are ready.

3

Get your own shop online

Your business gets its own web address and its own separate database.

4

Set up your shop

Add shops, users and products, or import products, customers and suppliers from Excel.

5

Sell and serve

Bill on the POS or as invoices, or on your industry screen: tables, appointments, orders and job cards.

6

Watch it all update

Stock, dues, accounts and reports update with every sale, purchase and payment.

BEHIND EVERY SHOP

Use it anywhere

Runs in the web browser on a computer, tablet or phone.

Keeps selling offline

The POS and industry screens work without internet; bills are sent later.

Safe and private

Own database, roles and permissions, activity log and encrypted backups.

Bangla or English

Use the whole software in Bangla or in English.

03

CORE MODULES

Built into every plan

Every GPOS plan, in every industry, starts with these modules.

Inventory & Products

Accurate stock for every product and every shop.

- ✓ Products with variants, categories, brands and units
- ✓ Bulk import / export of products
- ✓ Selling price groups, serial / IMEI and product warranty
- ✓ Alert quantity, expired products and stock adjustment
- ✓ Stock, stock in-out and stock-out reports

Purchases

Buy smart and always know what you owe.

- ✓ Purchases, purchase orders and purchase returns
- ✓ Purchase order to invoice
- ✓ Payments against purchases
- ✓ Purchase, purchased products and returns reports

Sales & Orders

From quotation to delivery, every sale in one place.

- ✓ Quotations, sales orders and order-to-invoice
- ✓ Sales returns, drafts and shipping management
- ✓ Invoice customization and multi-currency
- ✓ Sales, sold products and returns reports

Customers & Suppliers

Every customer and supplier with a clear ledger.

- ✓ Unlimited customers and suppliers
- ✓ Customer and supplier ledgers with dues
- ✓ Bulk import from Excel
- ✓ Location-wise customer report

Accounts

Cash, bank, income and expense under control.

- ✓ Cash and bank accounts
- ✓ Receipts, payments and expenses
- ✓ Profit / loss, VAT / tax and expense reports

Users, SMS & Notices

The right access for everyone, and a line to every customer.

- ✓ Users with roles and detailed permissions
- ✓ Activity log of every action
- ✓ Send SMS and email, by hand or automatically
- ✓ Notice board for your team

04 INDUSTRY SOLUTIONS

Eleven businesses, one platform

Each solution adds its own tools on top of the core, and each has its own detailed brochure.

Retail

Shops that sell over the counter: fashion, cosmetics, stationery, grocery and more.

- ✓ **Barcode billing:** Scan, tap or search, with several bills open at once.
- ✓ **Sizes & colours:** Variant products keep stock exact for every size and colour.
- ✓ **Your own labels:** Design barcode labels with price and MRP, in any size.
- ✓ **Member cards:** Tiers, member prices and reward points for regulars.
- ✓ **Offers that apply themselves:** Buy X Get Y, combos, coupons and gift vouchers.
- ✓ **Warranty:** Serial / IMEI warranty check and customer claims.

Built in: **Retail POS & Barcode Labels**

Pharmacy

Medicine shops and pharmacies: generic names, batch and expiry, prescriptions.

- ✓ **Generic name search:** Type a generic and see every brand, strength and the nearest expiry.
- ✓ **Tablet, strip & box:** Sell in any pack size while stock stays exact to the tablet.
- ✓ **Expiry control:** Warn or block expired stock and sell first-expiry-first-out.
- ✓ **Prescriptions:** Patient, doctor and prescription photo saved with the bill.
- ✓ **Batch recall:** Trace every invoice, customer and patient who got a batch.
- ✓ **Works offline:** Keep billing when the internet drops; bills are sent later.

Built in: **Pharmacy Management**

Accounting

Businesses that mainly need invoices, dues and complete accounts.

- ✓ **Professional invoices:** A4 / A5 invoices with due, credit limit and pay terms.
- ✓ **Dues at a glance:** Customer and supplier ledgers, receivables and payables.
- ✓ **Double-entry books:** Account groups, journals and every ledger account.
- ✓ **Bank reconciliation:** Match your bank statement, also by importing it.
- ✓ **Financial reports:** Profit and loss, trial balance, cash flow and day book.
- ✓ **VAT (Mushak):** Mushak-6.3 invoices, VAT registers and return worksheet.

Built in: **Complete Accounting**

Salon & Beauty Parlour

Salons, spas and beauty parlours: appointments, staff and packages.

- ✓ **Appointment calendar:** One column per staff, with clash warning and drag to move.
- ✓ **SMS reminders:** Clients get a reminder some hours before the visit.
- ✓ **Quick service bill:** Tap services or products and pick the staff on each line.
- ✓ **Staff commission:** Percent or fixed, per staff and per service.
- ✓ **Packages & memberships:** Sell sessions or discounts and see what is left.
- ✓ **Client profiles:** Visits, spend, history and notes like allergies.

Built in: **Salon & Spa Management**

Restaurant

Restaurants, cafes and fast food: tables, kitchen orders and waiters.

- ✓ **Live tables:** Free, running and food-ready tables, with minutes since opened.
- ✓ **KOT to the kitchen:** Only the new items go to the kitchen, on 80mm or 58mm.
- ✓ **Kitchen screen:** New, Cooking, Ready, Served, with a beep on new orders.
- ✓ **Dine-in, takeaway, delivery:** Plus a counter mode for fast food.
- ✓ **Split, move & merge:** Split the bill, move an order or merge two orders.
- ✓ **Works offline:** Tables, orders and KOT keep working without internet.

Built in: **Restaurant Management**

Wholesale & Distribution

Wholesalers and distributors: cartons and pieces, free quantity, dues and delivery.

- ✓ **Carton + pieces:** Enter cartons and pieces; the total is worked out for you.
- ✓ **Free quantity:** Bonus quantity on each line, not charged.
- ✓ **Return on the invoice:** Take goods back on the same bill.
- ✓ **Orders to delivery:** Sales orders, order to invoice and delivery challans.
- ✓ **Dues & credit limits:** Customer ledgers, credit limit and pay terms.
- ✓ **Consignment:** Sale-or-return goods, paid only when sold.

Built in: **Wholesale & Distribution**

Laundry

Laundries and dry cleaners: orders, tags and delivery.

- ✓ **Price list:** Item x service prices; 27 items and 4 services in one click.
- ✓ **Tag on every piece:** Barcode tag with order no., piece x of y and delivery date.
- ✓ **Express orders:** Express charge and a shorter delivery date.
- ✓ **Work board:** Received, Processing, Ready; scan a tag to mark it ready.
- ✓ **Check at delivery:** Scan the tags so every piece is in the bag.
- ✓ **Ready SMS:** Customers get an SMS when the order is ready.

Built in: **Laundry Management**

Tailor

Tailors: measurements, job cards, karigar wages and delivery.

- ✓ **Measurements saved:** The last measurements come on the next order by themselves.
- ✓ **Design choices:** Collar, cuff, pocket and fit on each garment.
- ✓ **Job cards:** Workshop job cards printed without prices.
- ✓ **Work board:** Received, Cutting, Sewing, Finishing, Ready.
- ✓ **Karigar wages:** Piece-rate wage recorded when a garment is ready.
- ✓ **Order & ready SMS:** Customers hear from you when the order is taken and ready.

Built in: **Tailor Management**

Jewellery

Jewellery shops: invoices, guarantees, installments and loyal customers.

- ✓ **Today's rate:** Save the morning rate once; every piece gets its new price.
- ✓ **Weight & making:** Net and gross weight, wastage, making and stone charge.
- ✓ **Vori, ana, roti:** Weights in gram and in vori / ana / roti / point.
- ✓ **Barcode tags:** Price tags that follow the rate of the day.
- ✓ **Guarantee & claims:** Guarantee register made from your sales, with claims.
- ✓ **EMI sales:** Sell on installments with a printed schedule.

Built in: **Jewellery Management**

Super Shop & Hypermarket

Super shops and hypermarkets: fast counters, offers, members and many products.

- ✓ **Scan & weigh:** Barcode and weighing-scale labels on the POS.
- ✓ **Offers on autopilot:** Buy X Get Y, combos and category offers by day and hour.
- ✓ **Coupons & gift vouchers:** One-time coupons and vouchers paid on the POS.
- ✓ **Cash control:** Counted close, safe drops and X / Z reports.
- ✓ **Member cards:** Tiers, member prices and extra reward points.
- ✓ **Works offline:** Counters keep selling when the internet drops.

Built in: **Promotions & Cash Control**

Electronics & Computer Store

Electronics, mobile and computer shops: serial / IMEI, warranty, EMI and repairs.

- ✓ **Serial / IMEI:** Every unit sold and followed by its serial or IMEI.
- ✓ **Warranty check:** Scan a serial, invoice or phone to see the warranty.
- ✓ **Claims & repairs:** Claims with checklists, and service job cards.
- ✓ **Supplier RMA:** Send units to the supplier and receive them back.
- ✓ **EMI sales:** Installments with a printed schedule.
- ✓ **Invoices & POS:** Counter POS and full A4 / A5 invoices.

Built in: **Warranty & Claims**

05

MODULES & APPS

More power when you need it

Modules and apps that bring more control, more sales and less paperwork.

Offline POS

Keep selling when the internet goes down.
